Positive Results

In June, the city will be advertising for bids regarding the water and sewer extension to I-80. Finally happening after 4 decades in the making.

What's Ahead

The City announced its 2021 Street Resurfacing Program and are taking bids.

The City is also taking bids for the municipal boat launch on East Broadway Street that also has been decades in the making.

The city is scheduled to take bids on the Main and Broadway intersection realignment project in June. Majority of this project is being paid for by the federal highway administration.

D&G Electric was awarded the bids to install underground electric in Knudson park to better facilitate the Christmas Lights in the park as well as upgrading the electrical service for events.

The city hopes to be able to open the pool but is still in need of lifeguards and a manager. Apply at City Hall.

From the Mayor's Desk

Dear Marseilles Residents,

As summer approaches and we anxiously look forward to the many projects we have going on. The city is applying for a second Housing Rehabilitation Grant. We are just completing the first one with a total of 10 homes being renovated for those with low to moderate income. The designated area with over 50% low to moderate income this year is from Main Street East to Chicago and East Bluff Street South to the river. If you reside in the designated area you should have received a survey. Please return the survey even if you are not interested in the program. The number of surveys returned play a role in the grant application process as grant applicants are graded by determined by points.

As we move through the year, we will continue to update you on events and community news. You can find these updates on our Facebook page, City of Marseilles Illinois or on our website, www.cityofmarseilles.com.

Sincerely, Mayor Hollenbeck
