#### INDEPENDENT AUDITOR'S REPORT

Honorable Mayor and Commissioners City of Marseilles, IL

#### **Opinions**

We have audited the accompanying financial statements of the governmental activities, business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Marseilles, Illinois, as of and for the year ended April 30, 2025, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the Table of Contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Marseilles, as of April 30, 2025, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the retirement plan information in Schedules 1 and 2 and budgetary comparison information in Schedules 3 and 4, and Notes to the Budgetary Comparison Schedules be presented to supplement the basic financial statements, as listed as *Required Supplementary Information* in the table of contents. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the Management Discussion and Analysis that accounting principles generally accepted in the United States of America requires to be presented to supplement the basic financial statements. Such

missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

#### **Supplementary Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The accompanying Schedules 5-11 are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, Schedules 5-11 are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

We have also issued our report dated July 11, 2025, on the City of Marseilles' compliance with State of Illinois Public Act 85-1142, see page 69. The purpose of that report is to describe the scope of our testing on compliance with Subsection (q) of Illinois Compiled Statutes 65 of (ILCS) 5/11-74.4-3 of the Illinois' Tax Increment Redevelopment Allocation Act (Illinois Public Act 85-1142).

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated July 11, 2025, on our consideration of the City of Marseilles' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City's internal control over financial reporting and compliance.

# INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable Mayor and Commissioners City of Marseilles, IL

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Marseilles as of and for the year ended April 30, 2025, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated July 11, 2025.

#### Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

#### Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

#### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

# RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES Year Ended April 30, 2025

Net Change in Fund Balances - Total Governmental Funds	\$ (1,754,035)
The amount by which capital outlays less disposals exceeded depreciation in the current period. (Governmental Funds report capital outlays as expenditures and do not report depreciation. In the government-wide statement of activities the costs of the purchased capital assets are reported as depreciation expense over the estimated useful lives of the assets.)	1,625,508
The amount by which debt service exceeded interest paid. (Governmental Funds report debt service interest paid and debt service principal payments as expenditures. In the government-wide statement of activities the cost of the debt service interest paid is reported as Interest on Long-Term Debt as a functional expenditure. Principal paid reduces the long-term liability and, in turn, is not recorded as an expenditure.)	360,908
Proceeds from the Issuance of Debt. (Governmental Funds report loan proceeds as revenue. In the government-wide statement of net position the principal received from the loan generates a long-term liability and, in turn, is not recorded as revenue.)	(479,004)
The change in Net Pension Liability and related Deferred Inflows/Outflows. (Governmental Funds do not report expenditures that do not require current use of financial resources.)	208,814
Change in Net Position of Governmental Activities	\$ (37,809)

#### Note 1 - Summary of Significant Accounting Policies

#### A. General

The City of Marseilles, Illinois, is operated under a Commissioners-Mayor form of government. The City's major operations include police protection, parks and recreation, public works, and general administrative services. In addition, the City owns and operates a water and sewer system.

For the year ended April 30, 2025, the financial statements are being presented in compliance with Governmental Accounting Standards Board (GASB) Statement No. 34, as described in more detail in Note 1C.

#### B. Reporting Entity

The City of Marseilles, Illinois, includes all of the funds and account groups relevant to the operation of the City in the financial statements reported herein.

The criteria of GASB pronouncements have been considered in determining the activities to be included in this report. As required by generally accepted accounting principles, these financial statements present the City (the primary government) and its component units. In evaluating how to define the reporting entity, management has considered all potential component units. The decision to include potential component units in the reporting entity was based upon the significance of their operational or financial relationship with the primary government.

These financial statements present the City (the primary government) and its component unit, The Marseilles Public Library.

The Marseilles Public Library provides educational and recreational services to residents of the City and the surrounding communities. The Library's board is appointed by the Mayor and Commissioners of the City of Marseilles. The Library is included in the reporting entity since it is financially accountable, as ownership lies with the City. Separate audited financial statements of the Library are available by contacting the Marseilles Public Library.

#### C. Basis of Accounting

The City maintains its accounting records on the cash basis and year-end adjustments are recorded to convert to the accrual basis or modified accrual basis as prescribed by generally accepted accounting principles. In the government-wide financial statements, the accrual basis is used, and revenues are recognized when earned and expenses are recognized when the related liability is incurred. In the governmental funds financial statements, the modified accrual basis is used. Under

#### Note 1 - Summary of Significant Accounting Policies (Continued)

#### C. Basis of Accounting (Continued)

the modified accrual basis, revenues are recorded when susceptible to accrual, i.e., both measurable and available, except for the property tax receivable which is discussed below. Available means collectible within 60 days. Expenditures are recognized when the related liability is incurred. All revenue and expense accounts are subject to accrual.

Property tax receivable and a balancing deferred inflow of resources are recorded in the government-wide statement of net position and in the fund financial statements. These amounts are measurable but not available.

#### D. Basic Financial Statements – Government-Wide Statements

The City's basic financial statements include both government-wide (reporting the City as a whole) and fund financial statements (reporting the City's major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business type.

In the government-wide Statement of Net Position, both the governmental and business-type activities columns are presented on a consolidated basis by column and are reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The City's net position is reported in four parts: net investment in capital assets; restricted-nonspendable; restricted net position; and unrestricted net position. Fiduciary funds are not included in government-wide statements; however, the net pension liability associated with the police pension fund is included on Statement 1 as it is the City's obligation.

The government-wide Statement of Activities reports both the gross and net cost of each of the City's functions and business-type activities. The functions are also supported by general government revenues. The Statement of Activities reduces gross expenses by related program revenues and operating and capital grants. Program revenues must be directly associated with the function of the business-type activity. Operating grants include operating-specific and discretionary grants while the capital grants column reflects capital-specific grants.

The City does not allocate indirect costs. The government-wide focus is more on the sustainability of the City as an entity and the change in its net position resulting from the current year's activities.

As a general rule the effect of internal activity has been eliminated from the government-wide financial statements.

#### Note 1 - Summary of Significant Accounting Policies (Continued)

#### E. Basic Financial Statements—Fund Financial Statements

The financial transactions of the City are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprise its assets, liabilities, reserves, fund equity, revenues, and expenditures/expenses. The various funds are reported by generic classifications within the financial statements.

#### 1. Governmental Funds:

The focus of the governmental funds' measurement is upon determination of financial position and changes in financial position rather than upon net income. For reporting purposes, the City has elected to treat the General Fund, Community Improvement Fund (Special Revenue Fund), and the Motor Fuel Tax Fund (Special Revenue Fund) as major funds, and has considered all other governmental funds to be non-major funds. In Statements 3 and 4, these non-major funds are reported as "Other Governmental Funds." Details of these funds can be found in Schedules 7 and 8. The following is a description of governmental fund types:

- a. General Fund is the general operating fund. It is used to account for all financial resources except those required to be accounted for in another fund.
- b. Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The City has fourteen other Special Revenue Funds: the Public Benefit and Comfort Station Funds (combined into one fund for purposes of this report), the Drug & DUI Fund, the Audit Fund, the Liability Insurance Fund, the IMRF Fund, the Social Security Fund, the Community Improvement Fund, the Motor Fuel Tax Fund, the Recreation Fund, the ESDA Fund, TIF Funds #4 and #5, the East Broadway Economic Fund, the Community Development Fund, and the Special Assessment Funds (combined into one fund for purposes of this report).
- c. Debt Service Funds are used to account for the accumulation of funds for the periodic payment of principal and interest on general long-term debt for governmental funds. The City has one debt service fund: the Working Cash Bond Fund.
- d. Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities. The City has two Capital Projects Fund (Street/Capital Improvements Fund and Sewer Lining Grant Fund).

#### Note 1 - Summary of Significant Accounting Policies (Continued)

#### E. Basic Financial Statements—Fund Financial Statements (Continued)

#### 2. Proprietary Funds:

Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private business enterprises, where the intent of the governing body is that the costs of providing goods or services to the general public on a continuing basis be financed through user charges. The City has one Enterprise Fund: the Waterworks and Sewerage Fund, which accounts for water service and sewage treatment and disposal. Debt service funds, Capital Projects, and Other Small Funds that have been maintained separately in the City's accounting system have been included in the Waterworks and Sewerage Fund for purposes of this report.

#### 3. Fiduciary Funds:

Fiduciary Funds are used to report assets held in a trustee or agency capacity for others and therefore are not available to support City programs. The reporting focus is on net position and changes in net position. Since by definition these assets are being held for the benefit of a third party and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements. The City has one fiduciary type fund, the Police Pension Fund, which is a pension trust fund.

#### F. Budgets and Budgetary Accounting

Budgetary control is on the total expenditure level for each fund. All budgets are on the cash basis. Budgets are prepared for all funds and all budgets lapse at year-end. The budget was approved by the Board and is used throughout the year for financial comparisons. The Operating Budget is presented in Schedules 3-6.

The Mayor and Commissioners, during the first quarter of the new fiscal year, adopt an appropriation ordinance. The appropriation ordinance is the document by which the corporate authorities appropriate such sums of money as are deemed necessary to defray all necessary expenses and liabilities of the City and specify the objects and purposes for which the appropriations are made and the amount appropriated for each object or purpose.

#### Note 1 - Summary of Significant Accounting Policies (Continued)

#### G. Capital Assets

Capital assets are reported at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date received. Additions, improvements, and other capital outlays that significantly extend the useful life of an asset are capitalized. Purchases of capital assets for amounts less than the threshold level are expensed in the year purchased. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets that exceed the threshold level is provided on the straight-line basis over the following estimated useful lives:

Assets	Th	reshold	Life (years)		
General Government:					
Buildings	\$	2,500	50		
Improvements		2,500	50		
Vehicles and Equipment		2,500	5 - 20		
Infrastructure		2,500	50		

GASB 34 requires the City to report and depreciate new infrastructure assets as of May 1, 2004. Infrastructure assets, which include streets and alleys, would likely be the largest asset class of the City; however, neither their historical cost nor related depreciation has been reported in the financial statements nor is its re-creation required. The Mayor and Commissioners have elected to report infrastructure only prospectively.

GASB 34 requires the retrospective recognition of capital assets other than infrastructure. The current year's financial statements include that recognition.

The City has considered possible impairments to its capital assets and asserts that there are none known or anticipated.

#### H. Revenue and Expenses

Program revenues in government-wide financial statements generally include fees, rentals, permits, fines, and other specifically billed revenues. In proprietary funds, operating revenues and expenses are distinguished from non-operating items because they are clearly traceable to the functioning of the specific service provided to the customers.

#### Note 1 - Summary of Significant Accounting Policies (Continued)

#### I. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### J. Investments and Cash Equivalents

With the exception of the Government Bond and Insurance Company Contract investments in the fiduciary fund, all investments are cash or cash equivalents (readily converted to cash). Deposits in banks or savings associations are valued at cost, which is equivalent to fair value. For purposes of the statement of cash flows, the proprietary funds consider short-term highly liquid investments, including time deposits at financial institutions, to be cash equivalents. The fiduciary fund investments were moved to a pooled investment account with police pension funds of other municipalities across the state. These investments are reported at market value as provided by the agents.

#### K. Restricted and Unrestricted Resources

When an expense is incurred in which both restricted and unrestricted net position/fund balances are available, it is the City's policy to first apply the restricted resources.

#### L. Compensated Absences and Post-Employment

During the year-ended April 30, 2025, the City updated the policy to allow vacation time to accumulate with certain restrictions. The requirements of GASB 101 have been followed to calculate the long-term liability for accrued compensated absences as of April 30, 2025. Also, an offsetting "Change in Accounting Principal" adjustment to the beginning net position of the City has been recorded to properly correct for this liability calculation. The requirements of GASB 100 have been followed to properly record this adjustment. Other than the Police Pension Fund and IMRF, the City is not obligated for post-employment benefits for employees.

#### Note 1 - Summary of Significant Accounting Policies (Continued)

#### M. Fund Balance Classification

In order to comply with GASB 54, the City adheres to the fund balance classification requirements. Fund balances in the fund financial statements will now be classified as follows:

- a. Nonspendable Fund balances should be considered to be nonspendable if funds are not in spendable form, or are legally or contractually required to be maintained intact. The City has a nonspendable fund balance in the Liability Insurance Fund for prepaid insurance \$132,240.
- b. Restricted Fund balances should be considered to be restricted when constraints placed on funds are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation. The City has restricted fund balances in the General Fund, see Note 4. Additionally, all fund balances that are not considered nonspendable in the following funds are restricted: Public Benefit, Comfort Station, Street Capital Improvement, Drug & DUI, Audit, Liability Insurance, IMRF, Social Security, Motor Fuel Tax, Recreation, ESDA, TIF #4, and #5, Community Development, East Broadway Economic, Bond, Capital Projects, Sewer Lining Grant, Community Improvement, and Special Assessments.
- c. Committed Fund balances should be considered to be committed if funds can only be used for specific purposes as a result of constraints imposed by formal action of the City's Board of Trustees. The City does not have any committed fund balances.
- d. Assigned Fund balances should be considered to be assigned if amounts that are constrained by the City's intent to be used for specific purposes, but are neither restricted nor committed. This City does not have any assigned fund balances.
- e. Unassigned Fund balances should be considered to be unassigned if they are a portion of the General fund balances that have not been considered to be restricted, committed, or assigned to specific purposes.

Unless specifically identified, expenditures act to reduce restricted balances first, then committed balances, next assigned balances, and finally act to reduce unassigned balances. Expenditures for a specifically identified purpose will act to reduce the specific classification of fund balance that is identified.

#### Note 2 - Cash, Cash Equivalents, and Investments

#### **Primary Government and Component Unit**

The City is allowed to invest in securities as authorized by Sections 2 and 6 of the Public Funds Investment Act (30ILCS 235). In general, the City may invest in obligations of the United States of America or its agencies (or guaranteed by the full faith and credit of the same) and certain time deposits and short-term obigations as defined in the Public Fund Investment Act. Cash accounts are maintained at the Marseilles Bank (MB) in Marseilles, Illinois; OSB Community Bank (OSB) in Marseilles, Illinois; and Illinois Funds held at U.S. Bank (IF) in Springfield, Illinois. At year-end, the carrying amount of the City's cash and deposits was \$5,861,280 and the bank balances totaled \$5,935,440.

Cash and investments are categorized in accordance with risk factors. Deposits are insured by the FDIC to \$250,000 for transaction accounts and \$250,000 for time deposit accounts per bank. All deposits are either insured or secured with pledged securities.

		Bank Balance	Book Balance
Type 1	Fully insured by FDIC	\$ 644,241	\$ 644,241
Type 2	Secured by bank letter of credit pledged to City but in the bank's name	3,454,561	3,380,301
Type 3	Uninsured	_	100
		\$ 4,098,802	\$ 4,024,642
<b>Uncategorized</b> -	Uncategorized Illinois Fund - secured		
	by State of Illinois	1,836,638	1,836,638
		\$ 5,935,440	\$ 5,861,280

The major divergence between book and bank balances consisted of outstanding checks and deposits in transit at April 30, 2025.

The City maintained a balance in the Illinois Funds as noted in the table above. The State Treasurer maintains the Illinois Treasurer's Investment Pool (Pool) at cost and fair value through daily adjustment in the interest earnings. The State Treasurer also maintains the average duration of the Pool at less than 25 days. The Pool is audited annually by an outside independent auditor and copies of the report are distributed to participants. The Pool maintains a Standard and Poor's AAAm rating. The relationship between the City and the investment agent is a direct contractual relationship and the investments are not supported by a transferable instrument that evidences ownership or creditorship. All funds deposited in the Pool are classified as cash equivalents as all could be withdrawn on a day's notice. Although not subject to regulatory oversight, the fund is administered in accordance with the provisions of the Illinois Public Funds Investment Act, 30 ILCS 235.

#### Note 2 - Cash, Cash Equivalents, and Investments (Continued)

#### Police Pension Investments

The Police Pension fund has investments in bank checking and savings accounts, CDs, and a newly formed pooled investment account. Investments of the police pension fund are held at OSB Community Bank and Marseilles Bank, Marseilles, Illinois. The pooled investment account is with IPOPIF, which is an investment account that holds investments from police pension plans of municipalities throughout the State of Illinois. A significant portion of the police pension investments of the City of Marseilles Police Pension Fund were moved into this pooled investment account during the fiscal year ended April 30, 2025. The investments have been recorded at market value at April 30, 2025. The investments are allocated as follows:

Account Type	Balance
Checking Account	\$ 126,985
CDs	38,138
Pooled Investment Accounts	6,519,856_
Total Cash and Investment Balance	\$ 6,684,979

Please note that other risks related to cash, cash equivalents, and investments are discussed in more detail in Note 10.

#### Note 3 - Capital Assets

The City's Fixed Assets are valued at historical cost or estimated historical cost, if actual cost is not known. A detailed listing is on file with the City Treasurer.

The current year additions to capital assets were \$2,259,558 for governmental activities and \$383,847 for business-type activities. There were no deletions or impairments of fixed assets identified during the fiscal year.

COST	<b>BASIS</b>

Depreciation is allocated to the following functions: Streets, \$340,838; Buildings, \$121,603; Public Safety, \$135,538; Recreation, \$24,142; Admin, \$11,929; Water and Sewer, \$670,157.

#### Note 4 - Restricted Fund Balances and Restricted Net Position

Amounts in the Motor Fuel Tax Fund are classified as restricted in the fund financial statements and in the government-wide financial statements. The amount restricted at April 30, 2025 totals \$679,894.

Amounts restricted for debt service total \$9,807 in the governmental funds, and \$208,319in the proprietary fund. Amounts restricted for capital projects total \$848,511 in the proprietary fund.

Prepaid Insurance of \$132,240 is classified as nonspendable fund balance in the liability insurance fund, and as a restricted net asset on the government-wide statement of net assets.

Special levies for police protection, garbage, street lighting, and school crossing guards are deposited in the general fund. All property tax money received for these special levies was expended in the year ended April 30, 2025. No restricted fund balance is necessary for these items. The General Fund maintains bank accounts for Freedom Run, Bicentennial, Police Association, Middle East Conflict Wall, Fall Fest, and Fun Days that hold donations and deposits that are restricted to be used for these purposes. The fund balance in the general fund for these restricted purposes is \$102,631.

Restrictions for other special levied taxes and other restricted amounts at April 30, 2025 are as follows:

	4/30/2025		
Public Benefit and Comfort Station	\$	323,570	
Street Capital Improvement		727	
Drug and DUI		68,916	
Audit		24,673

Community Development		271,186	
Community Improvement		283,053	
=	\$	1,511,329	
=	Ψ.	-	

#### Note 5 - Property Tax

Property taxes are attached as an enforceable lien on property as of January 1, 2023. Taxes are collectible in two installments on July 1 and September 1. The County Collector distributes these taxes to the various entities and funds within 30 days of collection. The City adopted a Tax Levy Ordinance in December of 2023. The tax assessment for the City for 2023 was \$83,462,469. The extension and collections were as follows:

	Rate	Extension	Received	Difference
Corporate	0.25000	\$ 208,656	205,385	9
Bonds and Interest	0.25025	208,865	205,589

<sup>\*</sup>Levied through the township.

#### Note 6 - Interfund Payables/Receivables and Transfers

There were no interfund payables/receivables at year-end. Interfund transfers during the year were approved to help finance operations of another fund, to help pay for infrastructure improvements made during the year, or to help finance debt obligations during the year. All transfers were properly approved by the board. The Interfund transfers during the year are as follows:

	Transfer In	Transfer Out
General	\$ 120,000	\$ -
Street Capital Improvement	233,000	-
Public Benefit	-	2,000
East Broadway	1,000	-
Water	58,139	275,000
Sewer	60,999	427,992
Water Improvement I	310,000	280,000
Sewer Improvement I	12,000	-
Sewer Improvement II	618,992	350,000
Extra Meter Fund	-	95,347
Stormwater	16,209	
Totals	\$ 1,430,339	\$ 1,430,339

#### Note 7 - Other Receivables and Payables

At April 30, 2025, the following receivables are recorded:

- Accounts Receivable Water and sewer billings not yet collected at April 30, including the May 2025 billing. Other receivables identified by the Clerk including income tax due from the State at April 30.
- Accrued Payroll Tax Liabilities Unpaid wages and the related IMRF, FICA, and Medicare taxes for work performed in the current fiscal year.
- Accounts Payable Unpaid bills for materials received or services provided at year end.

#### Note 8 - Insurance Risk Management

The City provides for risk management by securing comprehensive insurance through private carriers. The Mayor reports no major changes in insurance coverage or risk during the current fiscal year. Insurance premiums are paid through the Liability Insurance Fund. Tort levy funds were expended for the following purposes: liability insurance premiums, \$273,510.

#### Note 9 - Leases

There are no leases outstanding at April 30, 2025.

#### Note 10 - Risk Management

The City faces several types of risk. The following is a discussion of the nature of the risks, the significance to the government, and the policies in place to reduce the risk:

- 1) <u>Custodial credit risk</u> for deposits is the risk that in the event of bank or broker failure, the deposits may be in peril. The government policy is to either keep deposit amounts below F.D.I.C. insurance levels at a specific institution or to require the institution pledge securities or a letter of credit to insure the deposits in excess of F.D.I.C. levels. The results are disclosed in Note 2. This risk is low.
- 2) <u>Interest rate risk</u> is the risk that interest rate changes may adversely affect the fair value of investments. Since the government's investments are all cash or cash equivalents, this risk is minimal. The City's long-term debt accrues at fixed interest rates; therefore, interest rate risk related to debt is also minimal. Since the City continually borrows to finance improvements, increases in interest rates could have a negative impact in the future.
- 3) <u>Concentration of credit risk</u> is the risk of loss attributed to the magnitude of the government's investment in a single issuer. The Police Pension fund has significant investments in government bonds and insurance contracts. These are backed by the U.S. Treasury and other organizations but fluctuate in value. This risk is moderate to low.
- 4) Risk of loss of fixed assets is the risk that fire, wind, theft, etc. may reduce or eliminate the value of buildings, property, equipment, and other assets. The government has comprehensive insurance coverage to minimize this risk. During the past three years, settlements have been less than coverage. This risk is low.
- 5) Risk of claims and judgments is the risk that the assets of the government may be impaired due to an employee or officer's actions or failure to act. This risk is minimized by the comprehensive coverage provided by private carriers. This risk is low.

#### Note 11 - Long-Term Debt

The City's long-term debt is segregated between the amounts to be repaid from governmental activities and amounts to be repaid from business-type activities.

#### Governmental Activities

As of April 30, 2025, the long-term debt payable from governmental fund resources consisted of the following:

#### Note 11 - Long-Term Debt (Continued)

\$48,211 Commercial Loan for purchase of skid loader completed in March 2021. Note is for a term of 4 years at an interest rate of 2.60%. This loan was paid in full during the fiscal year.	-
\$35,655 Commercial Loan for purchase of police car completed in FY 2022. Note is for a term of 4 years at an interest rate of 2.60%	9,255
\$24,185 Commercial Loan for purchase of police car completed in FY 2022. Note is for a term of 4 years at an interst rate of 2.60%.	6,259

#### Note 13 - Retirement Benefits

All employees are covered by Social Security and Medicare. The City has two pension plans covering eligible employees. A summary of each plan follows:

#### Illinois Municipal Retirement Fund

Plan Description — The employer's defined benefit pension plan for regular employees provides retirement and disability benefits, post-retirement increases, and death benefits to plan members and beneficiaries. The Employer's plan is managed by the Illinois Municipal Retirement Fund (IMRF), the administrator of a multi-employer public pension fund. A summary of IMRF's pension benefits is provided in the "Benefits Provided" section of this document. Details of all benefits are

#### Note 13 - Retirement Benefits (Continued)

available from IMRF. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available Comprehensive Annual Financial Report that includes financial statements, detailed information about the pension plan's fiduciary net position, and required supplementary information. The report is available for download at www.imrf.org.

Benefits Provided – IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). The Sheriff's Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date).

All three IMRF benefit plans have two tiers. Employees hired *before* January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

Employees hired *on or after* January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96.

Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the *lesser* of: 3% of the original pension amount, or ½ of the increase in the Consumer Price Index of the original pension amount.

Employees Covered by Benefit Terms – As of December 31, 2024, the following employees were covered by the benefit terms:

#### Note 13 - Retirement Benefits (Continued)

Number of

### Membership

- Retirees and Beneficiaries	36
- Inactive, Non-Retired Members	6
- Active Members	15
Total	57

Contributions – As set by statute, the Employer's Regular Plan Members are required to contribute 4.5% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The Employer's annual contribution rate for calendar years 2024 and 2025 were 9.84% and 11.35% respectively. For the fiscal year ended April 30, 2025, the Employer contributed \$114,636 to the plan. The Employer also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by IMRF's Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Net Pension Liability – The Employer's net pension liability was measured as of December 31, 2024. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions - The following are the methods and assumptions used to determine total pension liability at December 31, 2024. The actuarial cost method used was Entry Age Normal. The asset valuation method used was Market Value of Assets. The inflation rate was assumed to be 2.25%. Salary increases were expected to be 2.75-13.75%, including inflation. The investment rate of return was assumed to be 7.25%. Projected retirement age was from the Experience-based Table of Rates, specific to the type of eligibility condition, last updated of the 2020 valuation according to an experience study from years 2017-2019. For mortality, for non-disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 106%) and Female (adjusted 105%) tables, and future mortality improvements projected using scale MP-2000. For disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, and Disabled Retiree, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020. For active members, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation.

### Note 13 - Retirement Benefits (Continued)

The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

	Portfolio Target	Long-Term Expected
Asset Class	Allocation	Real Rate of Return
Equities	33.5%	4.35%
International Equities	18.0%	5.40%
Fixed Income	24.5%	5.20%
Real Estate	10.5%	6.40%
Alternatives	12.5%	6.25%
Cash Equivalents	1.0%	3.60%
Total	100.0%	

Single Discount Rate – A Single Discount Rate of 7.25% was used to measure the total pension liability. The projection of cash flow used to determine this Single Discount Rate assumed that the plan members' contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The Single Discount Rate reflects: 1. The long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and 2. The tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met). For the purpose of the most recent valuation, the expected rate of return on plan investments is 7.25%, the municipal bond rate is 4.08%, and the resulting single discount rate is 7.25%.

### **Police Pension Plan**

### Police Pension Description

Police sworn personnel are covered by the Police Pension Plan which is a defined benefit single-employer pension plan. Although this is a single-employer pension plan, the defined benefits and employee and employer contribution levels are governed by Illinois State Statutes, 40 ILCS 5/3-101 et. seq., and may be amended only by the Illinois Legislature. The City accounts for the plan as a pension trust fund. The following information was provided by a GASB 67/68 actuarial valuation prepared by Lauterbach & Amen, LLP with a measurement date of April 30, 2025.

### Note 13 - Retirement Benefits (Continued)

### Police Pension Plan (Continued)

Employees Covered by Benefit Terms – As of April 30, 2025, the following employees were covered by the benefit terms:

### **Membership**

Number of	
Inactive Plan Members or Beneficiaries Currently Receiving Benefits	4
Inactive Plan Members Entitled to But Not Yet Receiving Benefits	3
Active Plan Members	10
Total	17

Funding Policy – There is no formal funding policy that exists between the Pension Board and the City at this time. The following factors of the informal funding policy are considered and described as follows:

- 1. The five-year contribution history of the Employer
- 2. All other known events and conditions
- 3. Consideration of subsequent events

Five-Year Contribution History of the Employer – Employer contributions (under the informal policy) should be limited to the average over the most recent five years. In determining the basis for the average there were three possibilities to consider: (a) The average dollar contributions; (b) the average percent of pensionable pay; and (c) the average percent of the actuarial determined contribution. Please see the table below for a summary of these values:

		Most			
Fiscal Year	<b>Employer</b>	Applicable	% of	Covered	% of
End	Contributions	ADC	ADC	Payroll	Payroll
4/30/2025	307,114	352,184	87%	883,478	34.76%
4/30/2024	309,357	369,107	84%	815,921	37.92%
4/30/2023	298,979	360,171	83%	790,238	37.83%
4/30/2022	297,822	367,903	81%	744,961	39.98%
4/30/2021	262,314	334,126	79%	690,112	38.01%

### Note 13 - Retirement Benefits (Continued)

### Police Pension Plan (Continued)

Other Known Events and Conditions – GASB has a provision for consideration of any other known events or conditions in the most recent five-year history in applying judgment for the informal funding policy. There are no events or conditions that have been considered in the development of the informal funding policy.

Consideration of Subsequent Events – GASB has a provision for modification based on consideration of subsequent events in development of the informal funding policy. There are no subsequent events that have been considered in the development of the informal funding policy.

Net Pension Liability – The Employer's net pension liability was measured as of April 30, 2025. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

### Actuarial Assumptions (Economic)

Discount Rate used for the Total Pension Liability  Long-Term Expected Rate of Return on Plan Assets	6.10% 6.25%
High Quality 20 Year Tax-Exempt G.O. Bond Rate Projected Individual Salary Increases	5.24% 4.00% - 6.79%
Projected Increase in Total Payroll	3.25%
Consumer Price Index (Urban)	2.50%
Inflation Rate Included	2.50%

### Actuarial Assumptions (Demographic)

Mortality Rates – Developed in the PubS-2010(A) Study improved to 2021 using MP-2021 Improvement Rates. These rates are then improved generationally using MP-2021 Improvement Rates.

Retirement Rates – L&A 2024 Illinois Police Retirement Rates Capped at Age 65

Disability Rates – L&A 2024 Illinois Police Disability Rates

Termination Rates – L&A 2024 Illinois Police Termination Rates

### Expected Rate of Return on Pension Plan Investments

The Long-Term Expected Rate of Return is intended to represent the best estimate of future real rates of return and is shown for each of the major asset classes in the investment policy. The target asset allocations shown below are representative expectations as disclosed in the Illinois Police Officers' Pension Investment Fund Actuarial Experience Study, dated April 12, 2024, for plan funding purposes. The table below illustrates the best estimate of Long-Term Expected Rates of Return developed for each of the major asset classes, adjusted for expected inflation, as disclosed in the Horizon Actuarial Services Survey of Capital Market Assumptions 2024 Edition, dated August 2024. The rates provided in the table below are based on a geometric average.

	Long-Term	Long-Term	Long-Term	
	<b>Expected Rate</b>	Inflation	<b>Expected Real</b>	Target

### Discount Rate

The discount rate used in the determination of the Total Pension Liability is based on a combination of the expected long-term rate of return on plan investments and the municipal bond rate. Cash flow projections were used to determine the extent which the plan's future net position will be able to cover future benefit payments. To the extent future benefit payments are covered by the plan's projected net position, the expected rate of return on plan investments is used to determine the portion of the net pension liability associated with those payments. To the extent future benefit payments are not covered by the plan's projected net position, the municipal bond rate is used to determine the portion of the net pension liability associated with those payments.

### Combined Totals for both pension plans

The combined net pension liability for both pension plans totaled \$2,580,258. The combined deferred outflows of resources for both pension plans totaled \$2,343,152. The combined deferred inflows of resources for both pension plans totaled \$3,886,838. The combined net pension benefit recognized for both pension plans totaled \$208,814 for the year-ended April 30, 2025

### Note 14 - Other Post Retirement Benefits Other Than Pensions

The City has evaluated its potential other postemployment benefits liability in accordance with GASB No. 75. The City provides continued health insurance coverage at the active employer rate to all eligible employees in accordance with Illinois statutes, which creates an implicit subsidy of retiree health insurance through the City are required to pay 80% of the current premium. However, only one former employee has chosen to stay in the City's health insurance plan in the last several years. Therefore, there has been low utilization and, therefore, no implicit subsidy to

### Note 14 - Other Post Retirement Benefits Other Than Pensions

calculate in accordance with GASB Statement No. 75. Additionally, the City has no former employees for which the City was providing an explicit subsidy and no employees with agreements for future explicit subsidies upon retirement. Therefore, the City has not recorded any postemployment benefit liability as of April 30, 2025.

### Note 15 - Loans Receivable

Included in accounts receivable of the non-major special revenue funds are loans receivable in the amount of \$109,121 are due from various individuals and businesses in the community to whom the City has loaned money for local business development. Each new loan must be approved by the Mayor and Commissioners.

### Note 16 - Prepaid Expense

The City had \$132,240 of prepaid insurance expense as of April 30, 2025. Insurance premiums are paid annually at the beginning of each covered year. Seven and a half months of premium payments are considered to be prepaid at year-end.

### Note 17 - Expenditures in Excess of Appropriated Amounts

The appropriated amounts exceeded actual expenditures for all of the City's Fund.

### Note 18 - Tax Abatements

During 2025, \$0 in tax abatements were distributed to developers.

### Note 19 - GASB 100 - Change in Accounting Principal and Error Correction

During 2025, the requirements of GASB 100 were adopted to record a change in accounting principal related to the adoption of GASB 101 for accrued compensated absences. In addition, an error correction related to repayment of long-term debt resulted in an adjustment to beginning net position.

\*Estimated based on contribution rate of 9.84% and covered valuation payroll of \$1,067,058.

Notes to Schedule of Contributions. Actuarially determined contribution rates are calculated as of December 31 each year, which is a 12 months prior to the beginning of the fiscal year in which contributions are reported. Methods and Assumptions. Used to Determine 2029 - 2024 Contribution Rates: Actuarial Cost Method is Aggregate entry age normal. Amoritzation method is level percentage of parvoll, closed. Remaining Amoritzation Period is 24 year closed period. Asset Valuation Method is 5-year smoothed market; 20% corridor. Wage growth is between 2.75% - 3.5%. Price Inflation is between 2.25% -Experience-based rable of rates that are specific to the type of eligibility condition; last updated for the 2017 valuation pursuant to an experience study of the period 2014 to 2016. Mortality is based on specific mortality table was used with fully generational projection scale MP-2017 (base year 2015) with specific rates developed for non-disabled retirees, and active members. The IMRF specific rates were developed from the RP-2014 Blue Collar Amunitant Mortality Table (non-disabled retirees), RP-2014 Disabled Retirees Mortality Table, and RP-2014 Employee Mortality Table (active members). Other Information: There were no benefit changes during the year. 2.50% approximate; No explicit price inflation assumption is used in this valuation. Salary increases are 2.75% - 14.25%, including inflation. Investment Rate of Return is 7.25%. Retirement Age is

# CITY OF MARSEILLES REQUIRED SUPPLEMENTARY INFORMATION NOTES TO BUDGETARY COMPARISON SCHEDULES Year Ended April 30, 2025

### Note A - Budget to Actual Reconciliation

An explanation of the difference between budgetary basis revenues and expenditures and revenues and expenditures determined in accordance with generally accepted accounting principles follows:

		Other
	General	Major
	Fund	Funds
Budgetary basis revenue (inflow)	\$ 3,499,621 0	\$ 303,433
Differences - budget to GAAP:		
Change in receivables	9,870	86
Total revenue (GAAP basis) as reported		
on statement of revenues, expenditures,		
and fund balances - governmental funds		
(Statement 4)	\$ 3,509,491	\$ 303,519
Budgetary basis expenditures (outflows)	\$ 5,314,597	\$ 655,841
Changes in payables and accrued items	1,367	
Total expenditures (Statement 4)	\$ 5,315,964	\$ 655,841

### Note B - Budgetary Process

The Operating Budget is adopted in the first quarter of the fiscal year. The budget was not amended and all budgeted items and appropriations lapse at year end. More information is available in Note 1 (F) to the financial statements.

### **Note C** - Expenditures in Excess of Appropriations

Expenditures were within appropriation limits in all major funds. Expenditures in excess of appropriations is in violation of state statutes.

### INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH STATE OF ILLINOIS PUBLIC ACT 85-1142

To the Honorable Mayor and Commissioners City of Marseilles, Illinois

We have audited the financial statements of the City of Marseilles, Illinois, for the year ended April 30, 2025, and have issued our report thereon dated July 11, 2025. The financial statements are the responsibility of the City of Marseilles, Illinois' management. Our responsibility is to express an opinion on these financial statements based on our audit.

Our audit was made in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

The management of the City of Marseilles, Illinois, is responsible for the government's compliance with laws and regulations. In connection with our audit, referred to above, we selected and tested transactions and records to determine the government's compliance with the State of Illinois Public Act 85-1142, "An Act in Relation to Tax Increment Financing."

The results of our tests indicate that for the items tested, the City of Marseilles, Illinois, complied with Subsection (q) of Illinois Compiled Statutes 65 of (ILCS) 5/11-74.4-3 of the Illinois' Tax Increment Redevelopment Allocation Act (Illinois Public Act 85-1142).

Nophine de Assoc.

Granville, Illinois
