(MUST HAVE)

All new homes not served by City sewer and water must submit perk test results, a letter or contract stating who is installing the well and septic. If you have County permission to install these yourself, I need written proof stating this. All applications with property outside the City Limits, but in the 1 1/2 mile City control, must then seek County approval. County Phone No. 815-434-8666.

Driveway approaches need to be 6 inches with fiber mesh and inspected by Paul Rivett, Superintendent of Streets, before being poured. Please call 815-795-4000 before pouring.
